## WORK EXPERIENCE

### Web Development Intern @InSecSys

[View Certificate](#)

Sept 2023 - Feb 2024

- Enhanced *Organicsattva.com* with HTML, CSS, JavaScript, PHP, and SQL.
- Developed user registration, session management, and dynamic content loading features.
- Contributed to backend development using PHP and SQL.
- Designed and developed *InSecSys.com*, a 30+ page responsive site.
- Utilized Laravel's Blade framework for scalable solutions.
- Demonstrated full-stack proficiency, adaptability, and attention to detail.

## SKILLS

**Programming Languages:** C, C++, JavaScript, PHP

**Web Development:** HTML, CSS, Laravel, Node.js, React.js, Next.js

**Coursework:** DSA, OOPS, DBMS, OS, CN

**Database Management:** MySQL, MongoDB

**Devtools:** Visual Studio Code, Git

## PROJECTS

### Video Conferencing App — MimicMeet

Developed a Next.js-based video conferencing platform integrating GetStream Provider for real-time video calling. Designed a user-centric interface that ensures a seamless experience with intuitive access controls for microphones and other settings. Implemented robust authentication using Clerk to safeguard user accounts and data. Delivered a fully-featured application with a focus on both usability and security.
